However as the company has no control over the conditions of it's use, it does not accept any liability, either directly or indirectly regarding the usage of its product.

Product Overview:

Description: High-performance packing made from expanded graphite, designed to handle extreme pressure and temperature environments while providing excellent chemical resistance.

Technical Specifications:

Specification	Test Result
Temperature:	-200 to 650°C (Steam up to 550°C)
Pressure:	Up to 300 bar
pH Range:	0-14

Applications:

- High-temperature valves in power plants
- Pumps in chemical processing
- Flanges in oil refineries

Key Benefits:

- Superior thermal conductivity for heat dissipation
- Chemical resistance to aggressive media
- Long service life, reducing maintenance costs

Unique Selling Points:

- Enhanced sealing performance in extreme conditions
- Flexible and easy to install, even in complex configurations.
