However as the company has no control over the conditions of its use, it does not accept any liability, either directly or indirectly regarding the usage of its product.

Product Overview:

Description: Ceramic fiber tapes are woven from high-temperature ceramic fibers to offer high thermal insulation, making them suitable for wrapping pipes, thermal insulation of cables, and other high-temperature applications.

Technical Specifications:

Specification	Test Result
Material Composition:	High-purity alumina-silica ceramic fibers, with optional fiberglass or metal reinforcement
Temperature Range:	Up to 1260°C (continuous); up to 1425°C (peak)
Thickness Range:	2mm to 5mm
Width Range:	20mm to 100mm
pH Range:	0 - 14

Applications:

Pipe wrapping, cable insulation, furnace and boiler insulation.

Key Benefits:

- High flexibility and easy-to-apply tape format.
- Excellent resistance to thermal shock and chemical exposure.
- Maintains integrity under high-temperature environments.
